Sweet dreams
possible with Armis

Armis is the right address to find the
most suitable mattress for you.

ARMİS BEDDING

The Manufacturing Power of Turkey...

Bed selection is essential for quality and peaceful sleep. Finding the best bed, you need to relieve the tiredness and stress of the day and rest your body positively affects your health and quality of life. At this point, Armis started its journey to become a leading brand that made a name for itself with its superior features and comfort in 2017, with an investment of 15.000.000 Euros, with 100% Turkish capital in Yalova. As of 2018, it has continued its activities in a production facility of 55.000 m2 with a closed area of 35.000 m2. is doing. We provide our customers with the best service with 550 sales points throughout Türkiye.

Armis is a brand that produces quality, durable mattresses with years of experience and an expert team. Constructed using high-quality materials, Armis offers you and your loved ones a peaceful sleep by maintaining the comfort of the first day for many years, unlike ordinary mattresses. Good sleep is possible when your body rests with full support and comfort. Armis attaches importance to ergonomic designs to provide a healthy sleep experience. Its unique designs that adapt to your body shape and support your spine allow you to wake up rested and fresh in the morning. Everyone's sleep preferences are different. Some like firm mattresses, while others prefer softer mattresses. Armis has a wide range of products to meet different needs. You can choose from various options, from soft mattresses to medium and hard beds.

Armis is a brand that attaches great importance to customer satisfaction. Experienced sales consultants will assist you in finding the right mattress for your needs and answering your questions about mattress selection. In addition, the customer support team is always ready to quickly and effectively solve any possible problems with the products you purchase.

As a result, Armis is a brand that makes your sleep experience perfect with quality materials, ergonomic design, and various options. We strongly recommend that you give the comfort of Armis a chance to improve your sleep quality and be more energetic and healthy throughout the day. Remember, good sleep is the cornerstone of a healthy life, and Armis Mattress will help you in this regard.

QUALITY SLEEP

Quality sleep plays a crucial role in ensuring our physical and mental well-being throughout the day. Frequently interrupted or incomplete sleep can lead to fatigue, lack of concentration, stress, and productivity loss. When insomnia becomes chronic, it can jeopardize our immune and repair systems.

Healthy adults typically require between 7 to 9 hours of quality sleep per night. However, this duration may vary depending on our dietary habits and the demands of the day. After a physically and mentally demanding day, our bodies may require more time to rest.

CLOUDS

Designed for those who want to experience a sleep on the clouds by easing the fatigue of the day, Clouds utilizes pocket spring technology to evenly distribute your body weight on the mattress, providing adaptability to body pressure points for a high-quality sleep experience. When you lie on the bed, the plush fabric's soft texture creates a warm embrace. The visco layer targets body pressure points, offering equal and effective support to each body area. As a result, it minimizes backaches and other discomforts, providing an uninterrupted sleep experience throughout the night.

Visco Layer:

Visco mattresses conform to the shape of the individual's body and aim to maximize spinal health. These mattresses, which adapt to the pressure exerted by the weight on them and are supported by springs, provide comfort to the user. Thus, they support a comfortable and healthy sleep throughout the night.

HERMES

The noble color tone, velvet luxury fabric design, and rich texture bring the atmosphere of majestic palaces to your home. The latex layer used on the pocket spring provides a perfect fit to your body, ensuring a comfortable sleep experience. With a 100% viscose fabric surface, it creates a natural sleep environment, preventing issues with sweating. Thanks to the special comfort pad support layer, you can wake up to the day with energy, just like a king or queen.

Latex Layer:

Thanks to the latex layer, it adapts to the curves and pressure points of the body. The flexible comfort layer ensures that movement in one point is not felt in other areas. The viscose knit fabric, created with threads, possesses high breathability. It consistently maintains a sense of softness.

HARMONY

Harmony provides a unique harmony, much like notes, by offering different firmness levels on the right and left sides of the mattress, along with the advantage of dual-sided use that caters to body pressure support points. Reflecting the art of creating a special bed layer like a musical composition, Harmony allows everyone to compose their own comfort melody. It offers a natural sleep experience with a special fabric technology made from linen threads.

Adjustable Sleep Comfort:

Designed especially for couples with different body structures, this mattress allows couples to adjust the firmness of the bed regionally as they desire. This way, one partner can enjoy a softer side while the other can have a more firm and comfortable sleep on their preferred side.

FLEXFIT

Designed with meticulous care for those who feel close to nature, lead an active lifestyle, and have limited time for a good sleep; Flexfit is crafted to offer maximum sleep quality for those who aspire to wake up as refreshed and energetic as an Olympic champion.

Oxycore Technology: Oxygen is a magical source of energy in nature. The fabric technology on the Flexfit mattress surface, supporting oxygen production, takes in oxygen from the atmosphere and directs it into the mattress, providing a healthier and more refreshing sleep experience.

Oxycore Fabric Technology

This technology involves microcapsules on the surface of the mattress that provide micro-massages to your skin during sleep, aiding in relaxation. Simultaneously, it moisturizes your skin and imparts a sense of freshness.

THERMO COLOR

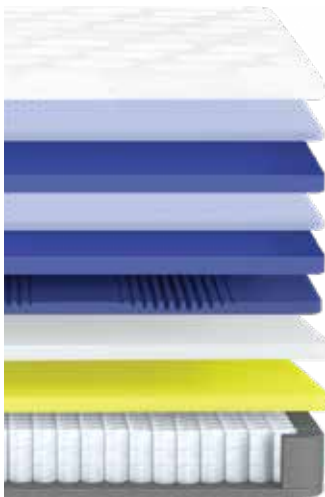

The most significant feature of the Thermo Color mattress is its special fabric that responds sensitively to your body heat. The mattress surface, adorned with elegant patterns, changes color and turns white with its special technology as your body temperature increases, much like the freshness of waking up to a new day. The fabric technology, which balances body temperature, maintains a specific range, ensuring the harmonious functioning of metabolism, circulatory system, and other vital functions.

Thermo Color Fabric:

Thermo Control fabric has the ability to regulate the temperature within the fabric based on external environmental temperatures. When the body temperature rises, it extracts heat from the body, creating a cooling effect.

INFINITY

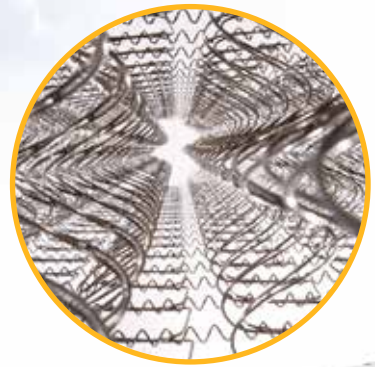

The mystery of Infinity, opening the door to infinite comfort, lies in the Seamless Coil System of SL. This system, prepared using twice as many springs compared to other spring technologies, is not just a mattress but a marvel of sleep engineering. Providing equal support to every point of the mattress, this technology ensures ideal comfort during sleep by applying pressure tailored to body pressure points. The headboard design of Armis Infinity combines aesthetics with technology.

Uninterrupted Sleep Comfort

Providing a deep sleep experience, this technological spring system, containing more springs than conventional ones, ensures immediate adaptation to natural sleep movements. It actively provides support and comfort to the body throughout the night.

AMBER

Inspired by the precious gemstone amber, one of nature's most valuable stones, the Amber Bed helps alleviate common issues such as headaches, stress, and sleep problems with its special technologies. The warm tones of amber, referred to as a reflection of natural elegance, soften the atmosphere and transform your room into an energy center. The fabric technology, processed with E vitamin-rich jojoba oil, creates an antioxidant effect, allowing you to experience a comfortable and calm atmosphere in bed.

Meditation Technology: The fabric, used in conjunction with conductive threads and static finish, provides anti-static properties. It balances the accumulated static electricity in the body, collects negative electricity, and reduces the effects of stress through the soothing fabric structure.

ASCEND TO THE THRONE OF COMFORT!

Armis' "King" mattress stands out with the luxurious touch of its cotton sateen fabric. This special fabric adds softness and smoothness to your mattress and also draws attention with its breathability. The cotton sateen fabric provides you with an environment where you can sleep with ease, allowing you to experience the high sleep comfort offered in hotels every night. Ideal for those who are uncomfortable sweating while sleeping in mattress, this feature keeps body temperature balanced and creates a cool and dry sleeping environment. Thanks to its high air permeability, the mattress minimizes perspiration and provides a feeling of comfort during sleep. The midi pocket spring system used in the mattress pad.

The unique harmony of the mattress and hyper foam minimizes the pressure of the mattress on the body by distributing the body weight in a balanced way. In this way, you can experience a deep and uninterrupted sleep process without the need to constantly change position during sleep.

Alegra

GOOD SLEEP STARTS WITH ALEGRA, TURNS INTO A HAPPY LIFE!

The Alegra mattress series is the perfect combination of innovation and comfort. This unique mattress series aims to offer a relaxing sleep experience with the features it offers. The most important feature of the Alegra mattress is the combination of hyper soft foam and densified foam. This special design offers a comfortable sleep experience even on a hard layer. The densified foam provides a more comfortable positioning of the ligaments in the waist and hip area. In this way, the body achieves a natural alignment and support. The hyper soft foam of Alegra mattress offers superior comfort. Tension and stress during sleep are reduced and a comfortable sleep is ensured. In addition, the breathable structure of the foam prevents sweating and keeps you cool during sleep. Armis Alegra mattress series offers a long-lifetime mattress with the combination of quality materials. With superior quality and durability, this mattress retains its shape and provides excellent support for many years. If you want a comfortable sleep experience and wake up with the support your body needs, Armis Alegra mattress series is for you.

Cascade

A DREAM TALE THAT WILL MAKE YOU FEEL REFRESHED WHEN YOU WAKE UP!

Designed with advanced technology, the Cascade mattress flows like a waterfall of sleep and offers you a unique experience. This mattress refers to the meaning of the word while maximizing comfort with its double-sided pad system. Cascade gradually envelops your body during sleep and provides a sense of relaxation. The double-sided pad system relieves your body weight and makes you feel like you are floating on the calm waters of a waterfall. Cascade's two different surfaces, medium soft and medium hard, allow you to sleep exactly according to your needs. You decide, choose which surface to fall asleep on and enjoy relaxation. With Cascade, its double-sided pad system and graduated comfort, stepping into dreams has never been easier. Armis Cascade offers a mattress experience that combines excellence and innovation.

Ravioli Set : Eclipse Mattress / Premium Base / Ravioli Headboard

Ravioli

Fabric Code: Z1007

THE DIFFERENCE OF WASHABLE PAD FOR SLEEP HYGIENE!

The zippered pad on the top surface of the Eclipse mattress, which can be easily removed and put on, not only creates a soft sleeping surface, but also protects your sleep hygiene.

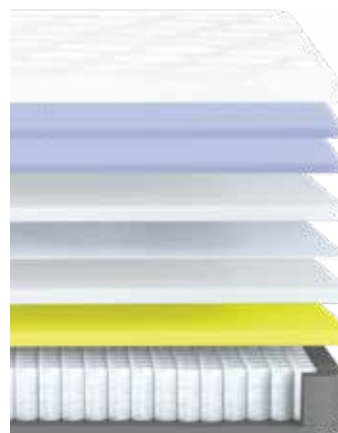

Pocket spring systems are prepared by placing springs in interconnected fabric packs. The most important feature is that the springs, which can move independently of each other, can react separately according to the amount of pressure applied. Thus, it provides the regional support that the body needs.

While babies bring joy and happiness to our world, their comfort and safety are among the top priorities. That's why, as Armis brand, we are proud to present our special baby mattress, taking into account the needs of you and your baby. It keeps your baby cool and fresh during sleep, maximizing their comfort. Sleep patterns are very important for babies during their growth period. Bonnel is equipped with features that will ensure your baby has a perfect sleep experience.

A dreamy touch...

Mattress fabric holds the secret of peace and comfort. Soft like silk, smooth like velvet. When Armis' special fabric designs meet your skin, they envelop you, relax you and carry you to the land of dreams. As you dance with the stars at night, the perfect texture of this fabric offers you a relaxation.

BASES

Bases Height
25 cm

You can read the Qr Code for all Bases with your mobile phone.

1

Quality and decorative legs in different height and appearance according to vary models.

2

Electrostatic powder coating durable to corrosion.
Durable carcass and covers made by steel box profile.

3

Dampers which make comfortable opening for your base.
Large volume and comfortable storage.

4

Silent and long lasting use thanks to stoppers.
Decorative and durable handles which prevents front move of mattress.

5

Safety lock for your security.
Air capsules which prevents damp and humidity with air circulations.

Sponge Layer

It is designed to easily adapt to any bed size. Thanks to its flexible and pressure reducing structure, it helps the spine to maintain its natural posture during the day and throughout the night. It keeps the blood circulation in the body healthy throughout the night.

Sponge Topper Difference

Topper, developed with a sponge layer, provides a usability advantage beyond creating a soft surface.

How should the right pillow selection be?

**RIGHT-LEFT
LATERAL RECUMBENT**
HIGH PILLOW

SUPINE SLEEP
MIDDLE PILLOW

PRONE SLEEP
LOW PILLOW

Your sleeping position is one of the most important factors in choosing the right pillow.

For back sleepers, a pillow that supports the head and neck area is ideal. Pillows that can be heightadjusted so that they are at the correct level of the neck improve your sleep quality by aligning your back and spine correctly.

For side sleepers, a higher pillow should be preferred. In this position, a pillow that fills the space between your head and neck will ensure the correct alignment of your body during sleep, and the neck prevents pain.

If you sleep face down, it is recommended to choose a lower and thinner pillow so you can make sure your head is properly aligned. However, the filling material of the pillow is also an important factor.

Traditional filling materials include feathers, feather blends, synthetic materials and memory foam. Feather and down blends offer a natural feel and are known for their breathability.

At Armis, we offer a wide collection of pillows with different filling materials, so that everyone can find an option to suit their preferences and needs.

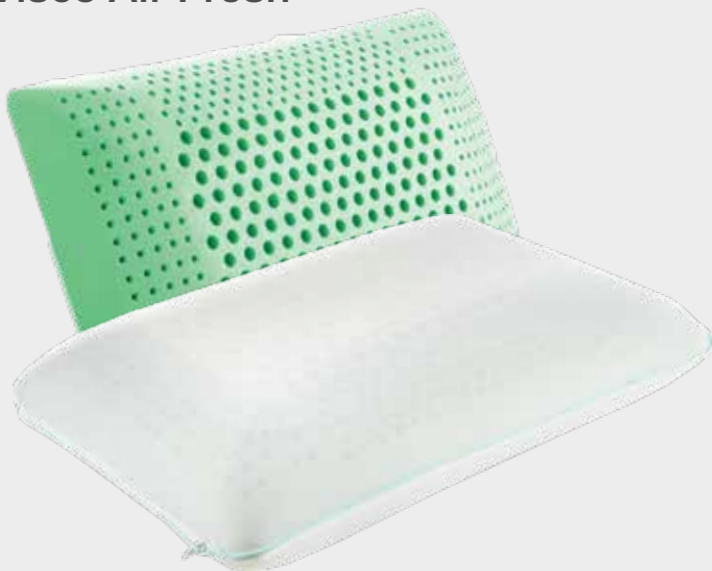

Visco Dream Neck

It provides a comfortable sleep as it perfectly fits the head and neck region. It is especially suitable for individuals experiencing neck straightening or cervical hernia.

Visco Air Fresh

Would you like to sleep comfortably? Breathe easily throughout the night with our Visco Air Fresh Pillow. Specifically designed for you, our Visco Air Fresh Pillow features 857 air channels on the top, preventing sweating and ensuring air circulation. Large porous air channels in the center of the pillow support the head, while smaller channels surrounding these holes are designed to provide superior neck support.

Visco Comfort Shoulder

Our Visco Comfort Shoulder Pillow, designed for side sleepers, fills the shoulder gap when you lie on your side and provides excellent neck support.

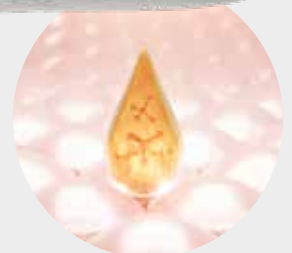

Visco Relax Gel

The Visco Relax Gel Layer located in the center of our pillow comes into contact with the body, absorbing the body heat in the region and facilitating a decrease in your body temperature. The gels are liquid-resistant, requiring no washing and can be wiped clean. Highly effective against sweating, it maintains the natural curvature of your spine, providing a comfortable sleep.

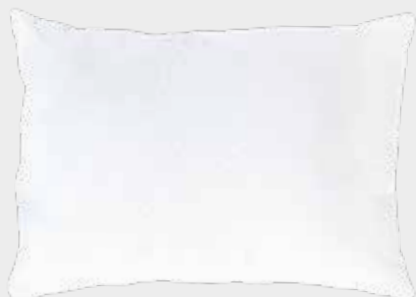

Visco Lux Collagen

Our Visco Lux Collagen Pillow provides maximum comfort with its silky touch in the neck area. The specially crafted outer fabric is made from collagen threads, and it contains a blend of visco sponge and soft sponge granules. Adapting to different sleep positions, it helps alleviate pressure points in the neck and shoulders. The collagen-threaded knit fabric contributes to enhancing the skin's beauty and maintains its fabric properties. The zippered outer cover can be easily washed if needed.

ITALIAN Pillow

50x70 cm

It provides an uninterrupted sleep thanks to its densely filled structure and knitted fabric.

It is suitable for use in all seasons with its air permeable structure.

FLORA Quilt

Single: 155x215 cm | Double: 195x215 cm

The outer fabric, which is 100% Microfiber, is very soft. The silicon fiber inside keeps bacteria away.

It maintains its volume for many years and offers a healthy sleep.

Flora Quilt, a warm and comfortable product with its soft texture, provides a comfortable sleeping environment and a sound sleep.

DÖRT MEVSİM Quilt

Single: 155x215 cm | Double: 195x215 cm

It offers its users a healthy sleep in all four seasons. It helps to increase the vitality during the day.

It has an aesthetic appearance thanks to the piping around it.

SMART Pillow & Quilt

50x70 cm
Single: 155x215 cm | Double: 195x215 cm

With its microplush structure, it does not lint and minimizes sweating due to its delicate structure.

ALOE VERA Pillow & Quilt

50x70 cm
Single: 155x215 cm | Double: 195x215 cm

It is produced from Aloe Vera Extract Micro Fabric. Thanks to its special fabric, it pushes the moisture out and keeps the cold out. The pores on the fabric allow sweat to evaporate easily.

WOOLTOUCH Pillow & Quilt

50x70 cm
Single: 155x215 cm | Double: 195x215 cm

With its 100% natural structure, it has excellent insulation properties against hot and cold. It provides an uninterrupted sleep by trapping the moisture in the air. It is highly resistant to dirt and stains. It is long-lasting with its easy-to-clean feature.

Protects the mattress and prolongs its service life. It provides you a comfortable sleep with its elastic structure and soft fabric that easily wraps around your mattress.

Thanks to the elastics on the corners, it fits your mattress perfectly and always preserves its form, is non-slip, wrinkled and elastic. It does not irritate the skin, it does not sweat thanks to its air permeability.

Protects the mattress and prolongs its service life. It provides you a comfortable sleep with its elastic structure and soft fabric that easily wraps around your mattress.

It fits your mattresses perfectly through elastics on the corners and always keeps its form. It is non-slip, non-crimpling, and elastic. It does not irritate skin and sweat through its air permeability. It is long-lasting with its waterproof structure.

Things You Need to Know About Mattress Protectors!

What is a mattress protector, also known as a mattress cover, and what does it do? Isn't a good night's sleep crucial for our overall health? If you were asked, 'What do you do for a comfortable sleep?' most people's answer would be choosing a good mattress. This answer is quite valid because selecting the right mattress is crucial for a comfortable sleep. However, another important factor to consider is maintaining the hygiene of the bed. This is where mattress protectors, or mattress covers, come into play.

Mattress protectors are protective covers placed on top of the mattress and secured with elastic like a fitted sheet. In addition to waterproof and quilted options, there are also wool, cotton, and fiberfill mattress protector sheet varieties available. The importance of mattress protectors has been better understood in recent years, leading to increased preference for them in homes and hotels."

Mattress protectors serve various purposes. Here are some common reasons why these protectors are often preferred:

Cleanliness and Hygiene: Mattress protectors prevent quick soiling of the mattress, providing protection against dust mites, dirt, and bacteria. This feature helps extend the life of the mattress.

Comfort: Mattress protectors are used to provide comfort, especially on firm mattresses. Plush and soft varieties, similar to mattress toppers, are particularly preferred for a comfortable sleep.

Liquid Protection: Waterproof mattress protectors, also known as moisture-proof protectors, offer protection against body sweat and all types of liquids. These features make them suitable for children's, baby's, single, and double adult mattresses.

Effective Against Bad Odors: Mattress protectors are effective against unpleasant odors that may develop on the bed. Especially, waterproof mattress protector types help prevent odors caused by sweat.

Washing Instructions

Hand or machine wash up to 30 C at mild process.

Lay flat to dry.

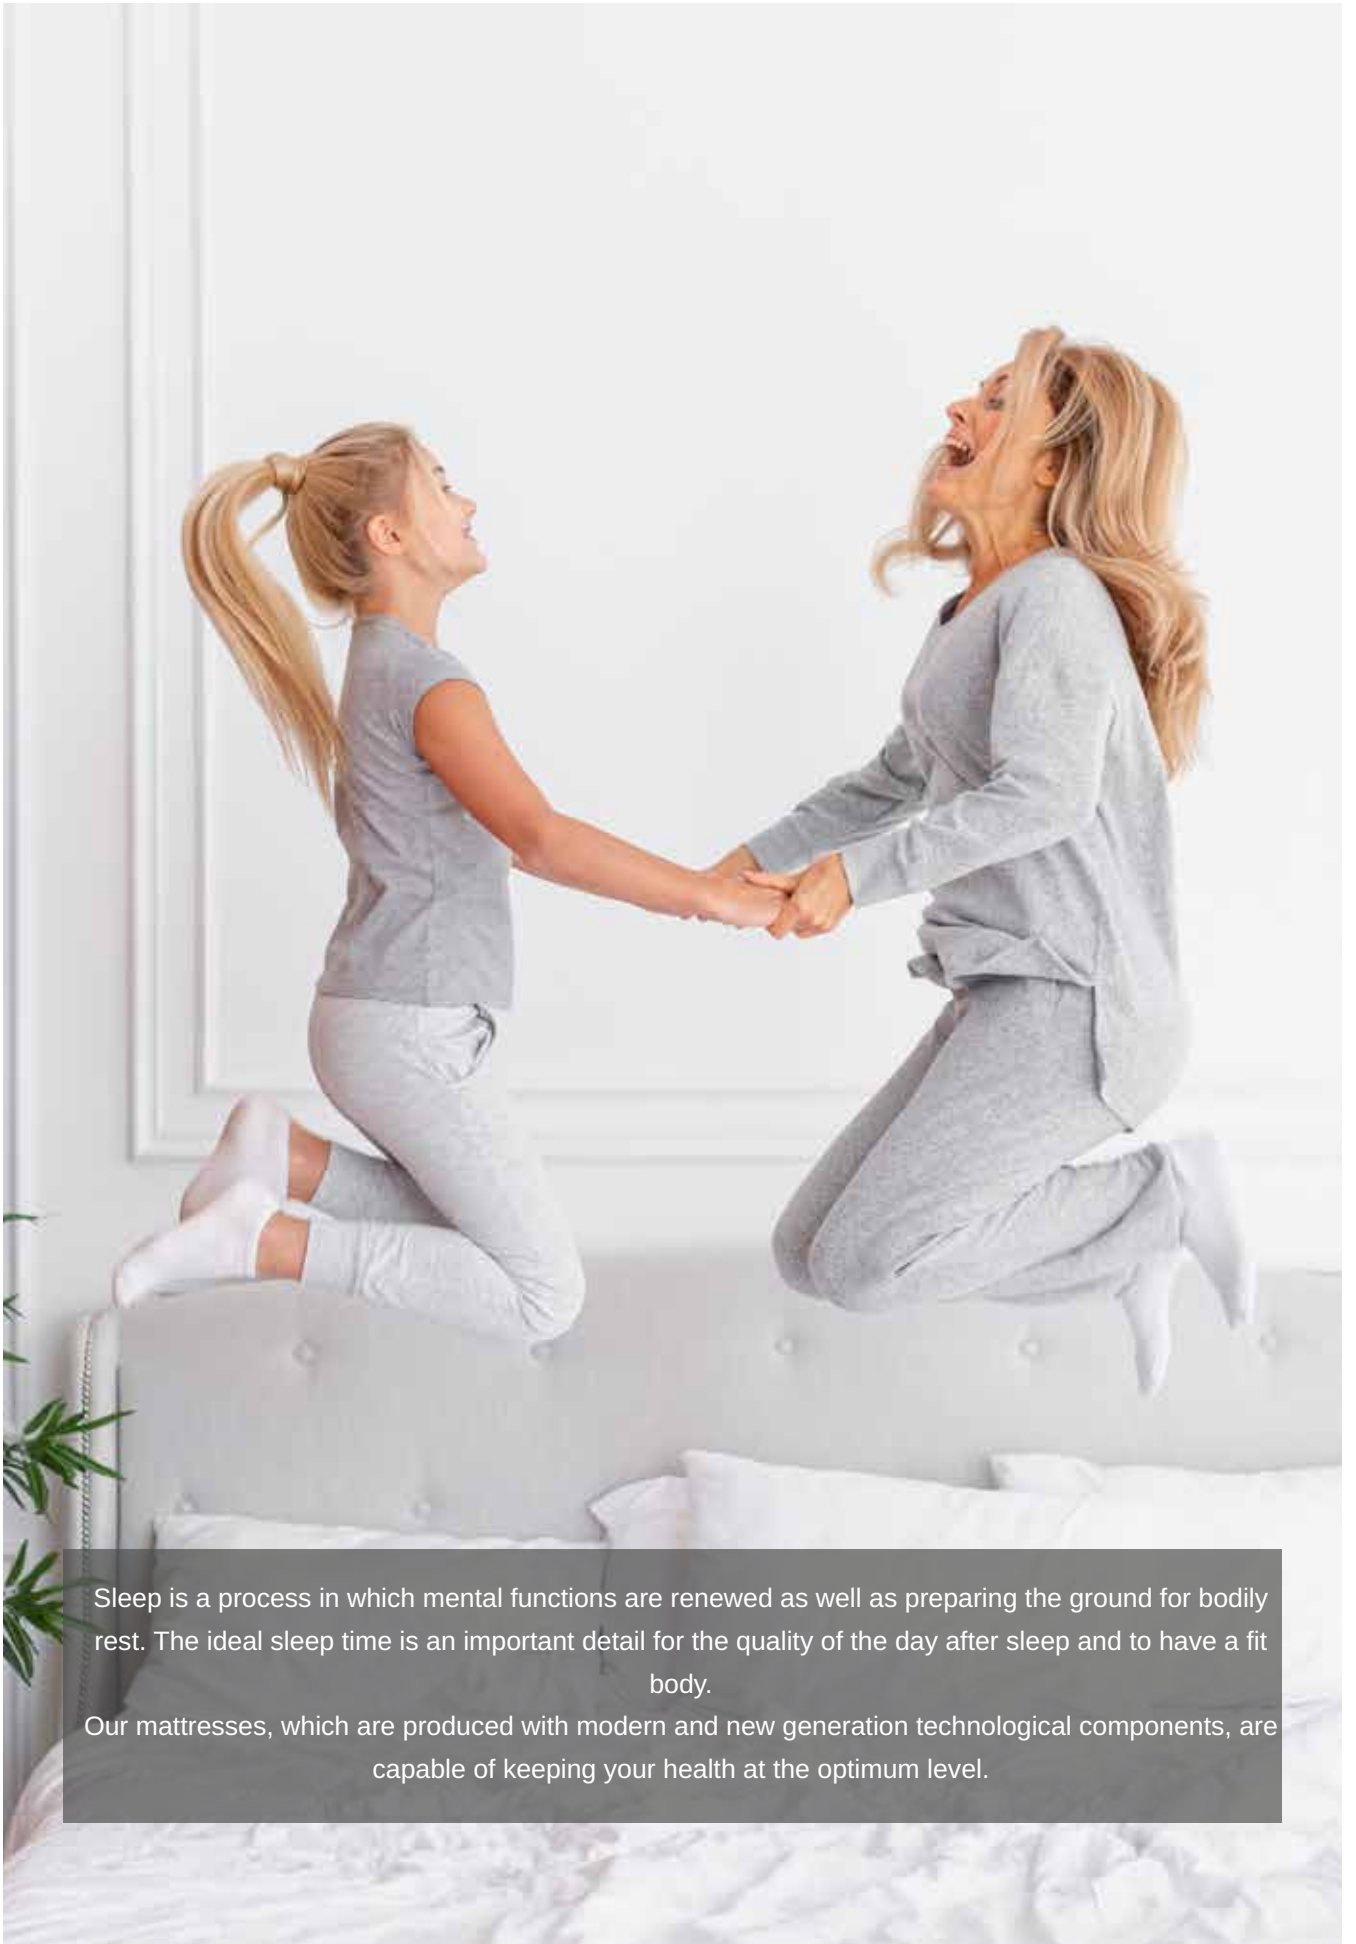

Do not iron.

No bleach.

Do not use dryer.

Sleep is a process in which mental functions are renewed as well as preparing the ground for bodily rest. The ideal sleep time is an important detail for the quality of the day after sleep and to have a fit body.

Our mattresses, which are produced with modern and new generation technological components, are capable of keeping your health at the optimum level.
